SUMMARY

Finding creative solutions to problems is something I have always enjoyed. As a teenager I loved tinkering with things that were broken, figuring out how they worked, and fixing them again. When I finished vocational high school, I knew exactly what I wanted my career to be. I am currently studying my degree at UPN "Veteran" Jakarta where I have learned how to apply critical thinking and problem-solving strategies to today's complex problems. If you are interested in contacting me in regards to a position with your company, please email me at muhammadkhafidfuadi@gmail.com, or feel free to connect with me on LinkedIn.

EXPERIENCE
